

PROPOSITION 65 WARNINGS

Went into effect on August 30, 2018

WCLBMA, in consultation with outside legal counsel, has prepared ready-to-place warning signage that will provide warnings for the most common items sold in a lumber, building materials or hardware retail business.

While the issue of unfounded shakedowns from unscrupulous lawyers and others was not addressed by the Office of Environmental Health Hazard Assessment (OEHHA), posting the required warnings are generally believed to comply with the new regulations.

In addition to the ready-to-post warning signage, WCLBMA has prepared a compliance manual containing many of the commonly asked questions, and additional information on Proposition 65 compliance.

WCLBMA is also available to assist in general compliance questions, not legal advice, and may be able to help with unusual situations.

Materials include:

1. Ready to post signage for paint, stain and varnish removers, screws and nails, electrical wiring products, plumbing products, pesticides and fertilizers and "Wood Dust."
2. A "Compliance Information Manual" with commonly asked questions and additional information
3. Registration with the WCLBMA that your business is endeavoring to comply with Proposition 65 regulations

If you have more than one business location, tell us how many locations and sufficient materials will be sent for all locations. Number of Locations: _____

WCLBMA Member - \$140

Non-Member - \$310
